EXAMINER'S AMENDMENT

Information Disclosure Statement

The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609.04(a) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." For example, see lines 2-3 page 8 of the specification; therein the applicant cites a reference, which is absent in the IDS. Therefore, unless the examiner on form PTO-892 has cited the references, they have not been considered. The applicant is requested to supply the documents in response to the Notice of Allowance.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Grace Hsu, *Esq.* on November 9, 2006.

In the claims:

Claim 3, lines 1 and 2, the phrase "or susceptible to" has been deleted.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The preparation of 5-aryl-3-hydroxypentanoates as matrix metalloproteinase inhibitors, where 3-hydroxypentanoic acids substituted by a biphenyl in position 4, said biphenyl optionally forming a tricyclic ring system, has not been taught or disclosed in prior art. The closest prior art, Barron et al. *Jnl.Med.Chem.* 11(6), 1968, 1139-1144 teaches the activity, *inter alia*, of 4-biphenyl-3-hydroxybutyric acid and its derivatives; but Barron et al. does not teach or disclose structurally

Art Unit: 1621

the compound of Formula (1a), which encompass 3-hydroxypentanoic acid substituted by a biphenyl in position 4, in the recited claim 1 of the application.

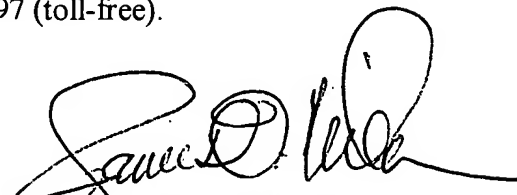

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
